

MASS-MEETING OF MEN TO BE HELD

Secretary of International Movement to Address Them at Grace Street Baptist Church.

SUNDAY SCHOOL INSTITUTE

A mass-meeting of men will be held at 3 o'clock this afternoon in the Grace Street Baptist Church. Mr. J. Campbell White, of New York, secretary of the International Laymen's Missionary Movement, will review some of the recent developments of the worldwide awakening of the men of Christendom as to their personal relation to the problems with which the church is wrestling to-day.

A privileged few heard the stirring address of Mr. White on Friday night, and the program committee of the Sunday School Institute regards itself as fortunate in being able to arrange to have him remain over and address the mass-meeting this afternoon.

Richmond to the Front.

It is not generally known that the men of Richmond are well to the front in this latest development of organized Christian activity, but an evidence of this is the fact that there are to-day twenty-five men's study classes in as many churches of this city and Manchester.

The leaders of these classes are all to new suggestions and methods, and a great impetus will be given to this work by the practical and helpful suggestions of the speakers this afternoon.

So important is this new development believed to be that Secretary McKee, of the Richmond Y. M. C. A., joined forces with the Sunday School Institute committee, and postponed his afternoon men's meeting until 8 o'clock to-night. In accordance with this plan, Mr. White will address the Y. M. C. A. meeting in the Leigh Street Baptist at the 3 o'clock service the Rev. Thomas Semmes, of St. Andrew's Church, will also be heard on the subject, "Definite Organization and Duties for Men."

Mr. Semmes has demonstrated that men can be interested and held in a definitely planned work, and he will give the meeting the benefit of his experience.

Sunday School Institute.

The service this afternoon will be a prelude to the Sunday School Institute, which will continue until Wednesday night. The Institute lecturers and teachers will begin the course of instruction at 3 P. M. to-morrow, when Mrs. Barnes will deliver her first lecture on "Reason Construction." Professor St. John will deliver his lecture on "Child Study" at 4 P. M. to-morrow, discussing the division, "Early Childhood—the Kindergarten Period."

convenience of busy teachers, who need this instruction, which has been consulted in fixing the hours of Professor St. John's lectures, and he will be heard in the afternoon and at night. In a course of five lectures he will explain the development of the child from the primary period through the last stage of adolescence. The teachers of the public and private schools have been especially invited, and they will doubtless avail themselves of this opportunity to hear the most eminent living authority on child study.

Bible Study.

On Tuesday Dr. Wilbur W. White, of the New York Bible Training Institute, will deliver three lectures on Bible study. Dr. White is recognized as a great teacher of the English Bible. The Rev. John R. D. White, of St. Andrew's, will lecture on "Teacher Training," and his well-known efficiency as a "teacher of teachers" gives assurance that this will be a very profitable feature of the Institute program.

Mrs. Barnes, the expert in primary and junior methods, will introduce to the Richmond public. This is her third visit to the city, and she has rendered such helpful service to the teachers of the primary and junior grades in the Sunday school that her lectures will be followed with keenest interest and great profit by the large force of primary and junior teachers of the city.

Stole the Wash.

In spite of her statement to the contrary, Minnie Johnson, colored, was convicted in Police Court yesterday morning of stealing \$24 worth of clothing from Bertie Parks, and was sentenced to four months in the City Jail. Bertie Parks, who put out on this line, and Minnie came along and stole line and all.

Found in Negro Den.

Charged with peeping into a den, occupied by negroes, W. F. Franklin and his wife, white, were fined \$10 each in Police Court yesterday morning, and put under \$100 security for thirty days.

Richmond Hive to Meet.

Richmond Hive No. 3, will meet to-morrow afternoon at 3:30 o'clock at the residence of Mrs. Minnie C. Reeser, 214 West Broad Street, for the purpose of receiving and balloting on the names of candidates who will be initiated at the class meeting to-day.

All members having candidates will

The cure for the blues—Cascarets.

A million boxes go out every month to carry a world of sunshine.

Are you getting your share?

Cascarets act as a bowel tonic, not as an irritant. They are vegetable. Their action is natural. Their effect is the same as the effect of some foods. They are gentle; no gripping. They are pleasant; no dreading. They are convenient; no waiting.

One old way was castor oil. The effect was to grease the bowels, and for a single day. Oil never causes the bowel muscles to act. Other ways were pills, salts and cathartics. The effect was the same as pepper has in the nostrils. They flooded the bowels with fluid. Those fluids were digestive juices. And the waste today means a lack tomorrow.

We knew that the method was wrong. That the after-effects only weakened the bowels. But we had no gentle laxatives in the old days. So we waited as long as we could, then took a big dose of physic. The method today is to take one Cascaret at a time—just as soon as you need it. Then the bowels are always clean.

Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure you get the genuine, with CCC on every tablet. The price is 50c, 25c and Ten Cents per Box

SURE CURE FOR BABY'S ITCH.

Oil of Wintergreen in External Wash Produces Remarkable Results. How to Get Prescription.

Is your baby burning up with torturing itching Eczema? Is he tearing his tender skin to shreds, vainly trying to scratch away the terrible agony? Are you of any member of your family suffering with an aggravating, persistent skin disease?

Use oil of wintergreen, mixed with the oil of glycerine, in D. D. D. Prescription. It will give instant relief. Oil of wintergreen, this simple, every-day oil of wintergreen, mixed with other healing herbs and vegetable ingredients, cures the worst forms of skin disease, and the remedy is so easy to apply—just an external liquid wash. No drugs or medicine. Just a few drops of the wash applied to the itching, burning spots; then instant relief. The instant the oil is applied the itch is gone.

To secure the proper results from this soothing, curative remedy, it is necessary to use oil of wintergreen, compounded with other mild ingredients. This compound, known as D. D. D. Prescription, not only relieves, but D. Prescription, just try D. D. D. Prescription. Try a few drops and note the relief. We positively vouch for the merits of this remedy. Owens & Minor Drug Company.

Soderman

attend this meeting, as it will be the last opportunity to receive the names before the arrival of Mr. Hollister, supreme commander of L. O. T. M., on February 21st, when she will have a large class initiation in the afternoon and a public meeting at night.

SADLER RECAPTURED

Man Who Escaped From Police Court Three Months Ago Caught Again.

Frank Sadler, the negro who made a sensational escape from the prisoners' pen in the Police Court about three months ago, was captured yesterday by Captain Tomlinson, and once more put behind the bars.

Sadler removed an iron screen on top of one of the gates to the pen and climbed over. The escape was made after adjournment of court, before the prisoners were to be taken away.

COMMITTEE IS FOR TAFT.

Republicans of Third District to Meet in Manchester in March.

The Republican congressional committee of the Third District met yesterday at Murphy's Hotel and was called to order by Hon. G. L. Lane, chairman. The district convention was called to meet at Leader Hall, Manchester, on March 10th, to elect delegates to the national convention. The committee is for Taft.

Bath's New Courthouse.

[Special to The Times-Dispatch.]

MILLBORO, Va., February 15.—The new courthouse for this county at Warm Springs is now nearing completion, and will be occupied at the March term of the Circuit Court. There was a great deal of kicking because of increased taxation on account of this building, but when the good citizens of the county see in this splendid building they will regret the slightly increased tax bill.

Mr. Barksdale Ill.

Mr. Marshall B. Booker, clerk of the Senate, left yesterday for his home in Houston, in response to a telegram informing him of the critical illness of his friend and law partner, former Senator William P. Barksdale. The condition of Mr. Barksdale is said by his friends to be very serious.

Fined for Cruelty.

E. M. Garthright was in Police Court yesterday morning on the charge of cruelly treating a mule. He was fined \$10.

FRANK CAUTHORN TAKES THE STAND

Confesses That He Killed Mrs. Ada Jones Because He Was in Love With Her.

DEFENSE PLEADS INSANITY

[Special to The Times-Dispatch.]

CHRISTIANSBURG, Va., February 15.—All the evidence in the Cauthorn case has been introduced except a few Commonwealth's witnesses in rebuttal, and Mrs. Drawry and Friday, the attendants in the case, who have never indicated what would be their opinion. They will make up their report to-morrow and testify Monday, and the case will then be argued and submitted. Frank Cauthorn went on the stand this afternoon and told practically the same story as at first, admitting that he killed Mrs. Jones, and did it because he loved her and would rather see her dead than the wife of another.

Proposed Divorce.

He told how he proposed for her to get a divorce from her husband, and marry him, and she agreed to it at one time, but afterwards declined. The defense has made a strong effort to show that the prisoner was irresponsible for his act and ought to be acquitted, while the Commonwealth contends that he was perfectly sane at the time. The crowd is still taking the keenest interest in the outcome of the trial.

His Mother Testifies.

Mrs. Sallie Cauthorn, mother of the defendant, was the chief witness to-day. Mrs. Cauthorn testified that Frank had scrofula while an infant, and that he never walked nor talked until he was five years old. After five years he would scream and cry out, his sobs at intervals, but finally outgrew these attacks. The witness had a first cousin who died from insanity in the Marion, Va., asylum, two years ago. Her grandmother lost her mind at an advanced age. The testimony, she testified, was much addicted to the use of drink. A night session of the court was held.

MECHANICS' INSTITUTE

New Equipment Offers Opportunity for Better Training.

The newly equipped chemical laboratory of the Virginia Mechanical Institute has been completed and is now open to students. The equipment is of the latest type, and the laboratory is well lighted and ventilated. The institute is now offering a course in mechanical engineering, and the new laboratory will be of great value to the students.

The modern method of the laboratory is such as to make the individual needs of the student and his special ability the basis of the work done. In this, therefore, no one is held back, for others and the scope of the work offered covers a wide range.

In all the drawing and designing classes the instruction is thoroughly and practically adapted to the need of the individual. In one class of twenty, studying mechanical drawing, some are making geometric constructions, others are making shop drawings for pattern-makers, while still others are solving elementary problems of designing machines and structural drafting.

This elasticity in imparting instruction is a great force in the school. It has no little value in suggesting to the student some line which will enable him to follow more closely his own bent.

The library of the institute has recently received a valuable accession in a set of technical works, edited under the supervision of Dr. Frank W. Gunsaulus, and published by the American Correspondence School, of Chicago, Ill.

The set is composed of Cyclopedia of Modern Shop Practice, five volumes; Cyclopedia of Engineering Practice, twelve volumes; Cyclopedia of Applied Electricity, five volumes; Cyclopedia of Architecture, Carpentry, etc., ten volumes; Cyclopedia of Textile Work, four volumes; Cyclopedia of Drawing, four volumes. Total number forty-seven.

These were the gifts of Mr. E. A. Crawford, representing the West Virginia Pulp and Paper Company of Covington, where the paper was made. The volumes were displayed in the exhibit of the Virginia Mineral and Timber Exhibit Association at the State Fair town Exposition among the products of Virginia forests.

WHIPPED A BOY

Teacher Acted Rashly, But Pupil Deserved Some Punishment.

Investigation was made by the Henrico County School Board yesterday on charges brought against Miss Beula Tiller, daughter of Magistrate Tiller, teacher of the school at Henrico, for whipping a boy, Benjamin, about three weeks ago. After a full inquiry, the board decided that Miss Tiller had acted rashly, but that her punishment was sufficient to warrant punishment. Miss Tiller stated that she had allowed the boy to go out of school for a few minutes, and that her punishment was warranted. The teacher allowed the boy to go out of school for a few minutes, and that her punishment was warranted. The teacher allowed the boy to go out of school for a few minutes, and that her punishment was warranted.

Miss Tiller stated that she had allowed the boy to go out of school for a few minutes, and that her punishment was warranted. The teacher allowed the boy to go out of school for a few minutes, and that her punishment was warranted. The teacher allowed the boy to go out of school for a few minutes, and that her punishment was warranted.

WEEK IN CITY HALL

Unless a little more heat can be injected into the political situation than has been manifested as yet, the week will be a quiet one in municipal circles. The Special Committee on Streets, Parks and Public Buildings, and the Finance Committee will meet at the same hour. Wednesday and Thursday are off days for the City Fathers. On Friday evening the Committee on Ordinance, Charter and Reform will hold the fort alone.

T. P. A. to Meet.

A general meeting of the Travelers' Protective Association will be held to-morrow night in the rooms of Post A. Third and Main Streets, to meet Dr. F. P. H. and other representatives of the association. The association will direct a vigorous campaign for new members, and expect to speak in various parts of the State. Mr. Kuehler will arrive at the Richmond Hotel this morning, and will be glad to receive visiting members of the T. P. A.

FAULKNER & WARRINER CO. First and Broad Streets

Embr'd Collars

Large assortment just arrived, 25c value, for 15c

Bargains in Spring Goods

In addition to extra good values in new spring fabrics, we are making some extraordinary offers on standard goods in every department. Drop in early Monday and see for yourself.

Pillow Cases, would be cheap at 15c, for 11c.

Tourist Ruchings, 6 yard to a box, 25c value, 19c

MISS THEODORA SHONT'S BECOMES THE BRIDE OF DUC DE CHAULNES, OF PARIS

Wedding Occurs at Bride's New York Home, Without Ostentation—Notable Guests.

NEW YORK, Feb. 15.—Miss Theodora Shonts, daughter of Theodore P. Shonts, formerly chairman of the Isthmian canal commission, was married at noon to-day to Emmanuel Theodoride Bernard d'Albret de Luynes, Duc de Chaulnes, of Paris.

The wedding took place at the home of the bride's father at 123 East Thirty-fifth street, the ceremony being performed by Monsignor M. J. Lavella, rector of St. Patrick's cathedral. Although considerable interest has been aroused because of its international phase, it was planned to be an unostentatious home wedding without unusual display or exceptional gathering of guests.

Notable among the guests, however, was the Duchess d'Auxois, a sister of the Duc de Chaulnes, and a member of one of the most aristocratic families of Paris; the baron Louis de Conde, of Paris, a friend of the Duke, and several representatives of the French embassy at Washington, including the councilor of the embassy, the latter a personal friend of the bride, and Lieutenant-Commander de Blanpre, the French naval attaché, and Madame Blanpre. Miss Marguerite Shonts, sister of the bride, was her only attendant, and the Prince Andre Gallatin, the duke's uncle, was best man.

like this. It is a low-lying body of land, partly wooded, but mostly salt marsh, and is a great feeding ground for the wild water fowl that winter on the coast islands. The Hog Island light is an important coast signal. It is a modern steel tower 280 feet high, and the lens is one of the most powerful on the Atlantic. It is a frequent thing that birds fly against the lens and are killed, especially on dark and stormy nights, but the rich harvest of that evening has never been known before.

GREAT HARVEST OF FINE WILD DUCKS

Hundreds of Them Blown Against Lighthouse at Hog Island During Storm.

[Special to The Times-Dispatch.]

EASTVILLE, Va., February 15.—During the severe northeast storm of last Friday night the people of Hog Island, a small piece of land lying along the Virginia coast, gathered in a rich harvest of fine wild ducks of the well-known brant variety, which either the force of the wind or their own speed had hurled against the sides of the lighthouse with such force as to kill or maim them. The keeper and his two assistants worked energetically for several hours picking up the dead ducks or capturing those that were stunned, and succeeded in bagging 450 of them, while the other Islanders, at the foot of the tower, captured 350 more, together with some wild geese. It was the most remarkable night ever witnessed on the island. The ducks were in fine condition, and will readily sell at \$1.50 a pair in the large cities. The brant is considered a great delicacy, and next to the canvas-back, is the best variety of water fowl.

FOR DIRIGIBLE BALLOON

NEW SPECIFICATIONS FOR ONE WHICH WILL HAVE TRIAL FLIGHT IN VIRGINIA.

WASHINGTON, Feb. 15.—Another effort was made to-day at the signal office to obtain satisfactory bids for the construction of a dirigible balloon. When proposals were opened in General Allen's office, a month ago the signal office made a familiar effort and at that time bids were received, but because of the incompleteness of the specifications accompanying them, all were rejected. The specifications cover the construction of a dirigible balloon to carry a combined weight of 350 pounds, and at least 100 pounds of ballast. It is to be designed to have a speed of twenty miles per hour in still air, but the bidders are required to submit proposals for cost depending upon the speed attained during the trial flight, according to a schedule of lesser speed down to sixteen miles, or a greater speed up to twenty-four miles. The balloon is to be a trial endurance flight of two hours, during which the airship is to travel continuously at an average speed of 20 miles per hour, and the balloon is to complete during the trial flight of speed. The trial flights will be held at Fort Myer, Virginia.

BALES RATHER LIGHTER THAN LAST YEAR'S WEIGHT WAS

NEW ORLEANS, La., Feb. 15.—Secretary Hester to-day issued a statement of the average weight of 6,624 bales of cotton handled at outposts, and across the Mississippi, Ohio and Potomac rivers overland to American manufacturers outside the cotton belt from September to January inclusive, showing an average per bale of 512.18 pounds against 521.95 last year.

Convicted of Manslaughter.

[Special to The Times-Dispatch.]

SALISBURY, N. C., February 15.—In Rowan Superior Court here to-day Friday Bostain, colored, was convicted of manslaughter for the killing in December of Frank Harris, an associate, Judge Council has not yet passed sentence upon the prisoner.

In its report to the court to-day the grand jury failed to recommend the erection of a new courthouse for Rowan, and Judge Council expressed his regrets and surprise that such was not done.

High Wind on the Coast.

[Special to The Times-Dispatch.]

NORFOLK, Va., February 15.—The wind blew great gusts this morning in Norfolk and along the coast, the velocity maximum reached being forty miles an hour. It was followed by rain, a drop in temperature, and clear weather this afternoon. There was no damage to property, and so far as reported, none to shipping.

MUSICIANS SAY FOR PANAMA TO ENTERTAIN CANAL EMPLOYEES

NEW YORK, Feb. 15.—One step in the government's plan to afford wholesome entertainment and amusement for the thousands of employees in the canal zone was taken to-day when a party of musicians followed the claims that Dolsen in a light, and that the robbery was an after consideration. He declares that he secured but \$72, and that his only mistake was flight.

Hatchet and Ax Duel.

Thurman claims that he was aroused from his sleep by Dolsen, who declared that he intended to cut the accused man's throat. He had a razor. A struggle followed, he claims that Dolsen grabbed a hatchet and he grabbed an ax. The instruments had been used the previous day in patching their shoes. In the struggle he hit Dolsen with the ax, but, he claims, in self-defense. He hit him again, and killed him.

He waited until day and hastily skipped. The police, after a chase of over a year, caught the man in Vancouver, B. C., and he was brought here and convicted last July. An appeal was finally passed on a few days ago, at this point he resented.

The condemned man claims that his trial was a farce, but that he will die like a man. In a note to young men he urges them to live a Christian life.
